

AKSHAY CHAVAN

Boston, MA | +1 617-708-7177 | chavan.ak@northeastern.edu | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Summary

Software Engineer with 4+ years of experience developing scalable, high-performance full-stack applications. Proficient in Java, Python, JavaScript, React, Node.js, and cloud platforms (GCP, AWS). Demonstrated expertise in building distributed systems, integrating ML/AI capabilities, and improving product accessibility and performance. Passionate about solving complex problems in web/mobile applications, machine learning infrastructure, and system design.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, C++, C#, Ruby, HTML5, CSS

Frameworks: React, Angular, Next.js, Node.js, Express.js, Spring Boot, Ruby on Rails, Redux

Databases: MySQL, PostgreSQL, MongoDB, Redis, Firestore, Elasticsearch

Developer Tools: GCP (Google Cloud), AWS, Docker, Kubernetes, Jenkins, Git, GitHub Actions, Linux

AI/ML Tools: HuggingFace, OpenAI APIs, Google Gemini API, Google Cloud Speech-to-Text, PyTorch, TensorFlow, NLP APIs

Certifications: Google Cloud Certified – ◦ Professional Cloud Developer  ◦ Associate Cloud Engineer  ◦ Cloud Digital Leader 

Experience

Northeastern University

Jul 2024 – Dec 2024

Graduate Research Intern

Boston, MA

- Conducting research on historical image degradation and bias in archival media using ML and NLP techniques.
- Built a full-stack web application to visualize and analyze image metadata using ArcGIS, QGIS, and Flask.
- Integrated spatial analysis and transcription services to enable social justice-focused historical interpretation.

Copart

Jul 2024 – Dec 2024

Software Engineer Intern

Dallas, Texas

- Developed and deployed Google Places integration for Copart US & UK, improving UX for 5,000+ employees.
- Refactored core React components and implemented custom hooks, reducing app load time by 20%.

PriceLabs

Oct 2022 – Aug 2023

Full Stack Engineer

Chicago, IL (Remote)

- Designed role-based access controls, enabling 5% user growth and improved large-scale user permission handling.
- Revamped pricing dashboard using Ruby on Rails, reducing UI interaction latency by 40%.
- Enhanced support systems with Zoho SalesIQ JS API, increasing support efficiency by 20%.

Quantiphi

Jul 2021 – Oct 2022

Software Engineer

Mumbai, MH, India

- Engineered ML-integrated applications for speech analytics and KPI forecasting, reducing costs by 70%.
- Led design of a real-time agent feedback system used across multiple client organizations.
- Synchronized Firestore and MySQL databases with robust transaction management, reducing sync errors by 98%.

FinIQ Consulting India

Jul 2019 – Jul 2021

Software Developer

Pune, MH, India

- Developed Android and Java-based trading platform, boosting trading volume by 20% and annual revenue by \$1M+.
- Implemented Jenkins CI/CD pipeline for Angular frontend, reducing deployment time by 80%.

Projects

StudyBuddy – AI-Powered Learning Assistant | *Next.js, Flask, Tailwind* | [GitHub](#)

Aug 2024 - Aug 2024

- Developed an AI assistant enabling students to process videos and PDFs using automatic transcription and NLP.
- Used Google Cloud Speech-to-Text and Gemini API for transcription and generative note-taking.
- Designed scalable architecture with secure auth and modular microservices.

ByteExchange | *React, Node.js, JavaScript, MongoDB, Docker, CI/CD* | [GitHub](#)

Jan 2024 – Apr 2024

- Built a full-stack Stack Overflow clone handling 1,000+ user queries with robust auth and rate-limiting.
- Implemented password hashing, session cookies, and backend optimizations to enhance security.

Image Processing Application | *Java, JUnit, Swing, Spring Boot* | [GitHub](#)

Sep 2023 – Dec 2023

- Created a feature-rich image manipulation tool with support for filtering, enhancement, and transformation.
- Followed test-driven development with 90%+ unit test coverage.

Education

Northeastern University

Sep 2023 – Sep 2025(Expected)

Master of Science in Computer Science — GPA: 3.92/4.0

Boston, MA

Savitribai Phule Pune University

Aug 2016 – Jun 2019

Bachelor of Engineering in Computer Engineering — GPA: 8.76/10.0

Pune, India
